

MOVE YOUR BUSINESS FORWARD WITH NEW LAPTOPS

Get optimal performance, battery power, and security with mobile devices powered by the 6th generation Intel® Core™ processor and Intel® Core™ m processor

Now you can be more productive in more places than ever: today's mobile devices are thinner and lighter with longer battery life, and they offer a wide range of performance and operating system options. Even better, strong hardware-enhanced security features help protect your sensitive business data, devices, and user identities.

WHAT MOBILITY FEATURES MATCH THE WAY YOU WORK?

A form factor for every function.

CONSIDER: Mobile devices powered by the 6th generation Intel® Core™ processor family are as diverse as the ways you'll find to use them: traditional laptops and razor-thin Ultrabook™ devices, as well as versatile 2 in 1 devices, many of them touch-enabled.

Power and performance to go farther.

CONSIDER: The 6th generation Intel® Core™ m series processor provides up to 2.5x faster performance compared to a 5-year-old mobile PC.¹ You'll also get working fast with Instant Wake Up.² With the ideal combination of business-class performance and up to 3x longer battery life than a 5-year-old mobile PC,¹ it's perfect for workers on the go.

Security to the core.

CONSIDER: Powerful hardware-enhanced security features help protect sensitive business data, user identities, and devices.³ And, embedded management technology enables you to remotely diagnose, isolate, repair, and manage devices even when powered off.

Cut the cords, not the productivity.

CONSIDER: You can wirelessly connect to monitors and keyboards using Intel® Wireless Docking and present your content in a conference room without the hassle of cables or adapters using Intel® Wireless Display.

Ready for Windows* 10? So is your new laptop.

CONSIDER: You can get business-class performance and security by modernizing your organization with new laptops powered by the 6th gen Intel Core processor, and you can be confident you'll be prepared for Windows® 10 when it's time to migrate.

A Better Way to Work – Anywhere and Everywhere

Get the performance and security you need to move your business forward – choose laptops, Ultrabook devices, 2 in 1s, and other mobile devices powered by the 6th gen Intel Core processor and Intel Core m processor.
