10.1" IPS touch display

Case & keyboard

The Amplify Tablet System includes a durable case that protects the screen

and serves as a tablet stand, as well as an external USB keyboard for easy text entry.

K-12 Software

Integration with Student Information Systems (SIS)

The Amplify Tablet System connects directly with a district's SIS to provide easy provisioning of student tablets; Amplify

works with Clever to make integration simple and allow for ongoing data compatibility.

Exclusive instructional platform

The Amplify Tablet System comes with intuitive instructional software, including:

- Real-time, in-class assessment tools with instant feedback
- Classroom management tools and controls (screen lock, app controls, use monitoring)
- Playlist Builder for easy multimedia lesson planning and distribution of differentiated content to students
- Built-in assessment item creation and quiz delivery to students

* With 3-year agreement. Additional leasing fees apply.
One-time purchase pricing also available.

For more information about the Amplify Tablet System, please email access_sales@amplify.com or call (800) 823-1969.

K-12 Content

K-12 content starter kit

The Amplify Tablet includes all the standard native Android apps and also comes preloaded with Encyclopaedia

Britannica; CK-12 e-textbooks in middle school math, science and social studies; and hundreds of public domain ebooks.

Amplify Market

The Amplify Market provides students and teachers with a safe, highly curated K-12 app store. We partnered with Common Sense Media to offer access to a host of appropriate, high-quality educational apps

with educator reviews and ratings, lesson ideas, standards and skill alignment. Districts can also bulk-provision apps through Amplify Market, installing apps onto student and teacher tablets at scale.

K-12 Support

Implementation support

As part of our bundle, our Service team works hand-in-hand with districts to drive deployment and launch a successful program. We collaborate with the district to conduct relevant assessments and

oversee the program management of all aspects of the project, such as infrastructure, accessory selection, content planning, and ongoing technical and pedagogical support.

Training for district leaders, teacher trainers and technical staff

For deployments of more than 1,000, Amplify includes: a one-day planning workshop for district and project leadership; a two-day train-the-trainer

course for up to 20 educators; and a one-day course for up to 20 district and school technical support staff.

Customer support

A highly knowledgeable help desk staff is available by toll-free phone number from 7 a.m. to 8 p.m. Eastern Time weekdays and Saturday 10 a.m. to 4 p.m. In addition to the toll-free number, Amplify offers the same expert support over email or via

an online user community directly from the Amplify Tablet or any computer or mobile device. The help desk is available to students, teachers, administrators and technical staff.

App and web filtering

The Amplify Tablet System is designed for 24/7 learning, with web filtering, app blocking and usage policies all enforced

remotely over the air, and no need for overnight charging in sync carts.

Mobile device management (MDM)

Amplify's MDM system is purpose-built for K-12 education and allows administrators to easily track, lock and wipe devices as

well as deliver new software, software updates and curricular content to tablets, over the air 24/7.

Please note that Amplify may change the hardware specifications, software, content and support included in the Amplify Tablet System in order to provide customers with improved technology and features as they become available.
