Detour

Offer: Detour is an amazing new way to experience San Francisco. We produce gorgeous audio walks that reveal hidden stories, people and places at every turn. Each Detour takes you at your own pace, your own schedule, alone or synced with friends. When you take a Detour, you'll put in your earbuds, slip your phone in your pocket and start seeing things in a different way.

You'll walk in other people's shoes, travel through time and find unexpected joy and intrigue in even the most common or mundane places. Your phone does the work while you become entranced by the world around you.

As an Intel Developers Forum attendee, we're excited to provide you with your first Detour for free. After you download the app (<http://www.detour.com/download>), simply use the code INTELSF at <http://www.detour.com/redeem> to take any Detour of your choice for free.
