

Intel® Itanium® Processor 9500 Series Enabling Component Supplier Contact Information

Intel has worked with the suppliers of essential technologies to ensure supporting components of Intel® Itanium® Processor 9500 Series platform are available for the platform/system designs.

Suppliers listed have notified Intel of their intent to support the processor enabling solution based on Intel reference design as identified in the table.

Supplier information provided in the table was deemed accurate when this document was released. Customers planning on using the Intel reference design should contact the suppliers for the latest information.

These vendors are listed by Intel as a convenience to its customers. Intel does not make any representations or warranties whatsoever regarding the quality, reliability, functionality, or compatibility of these devices.
