Independent auditors

Ernst & Young LLP, San Jose, California, USA

Environment, health and safety

Intel employees maintained their world-class health and safety performance by improving on last year's record results. Over the past four years, the company worldwide has reduced the recordable injury rate an average of 30% each year and the lost-day case rate an average of 35% each year. We achieved reductions in key air emissions and improved our solid waste recycling performance during a year of tremendous growth. These results are clear examples of the success of our Design for Environment, Health and Safety programs. Intel also received a United States Environmental Protection Agency 2000 Climate Protection Award for its Instantly Available PC technology. Intel and the Nature Conservancy launched a Web site (www.lastgreatplaces.org) for science students in grades 7–9 that provides conservation information about the world's "Last Great Places." The Nature Conservancy has currently identified 200 such environmentally unique areas targeted for protection. Please see our *Environmental, Health and Safety Performance Report* at www.intel.com/go/ehs. For a printed copy, call (800) 316-5542 (U.S. and Canada) or (480) 552-2771 (worldwide).

Employer of choice

Intel strives to attract and retain the best minds available by providing an environment in which people of diverse backgrounds are valued and rewarded, encouraging innovation and high levels of fulfillment and productivity. Our worldwide emphasis on open communication, commitment to developing a diverse workforce, involvement in our local communities and philosophy of shared rewards has made Intel an attractive place to work. To learn more, visit the Workplace section of Intel's Web site at www.intel.com/jobs/workplace.

Intel and education

Improving education is a major focus for Intel and its employees. The Intel® Innovation in Education initiative focuses on preparing today's teachers and students for the demands of the 21st century. Through this program, Intel donated approximately \$120 million in 2000 to support our focus on improving math, science and technology education. Key elements of the program include:

- Intel® Teach to the Future will give professional development opportunities to 500,000 K–12 teachers around the world by training them to integrate technology into their curricula for improved student learning.
- Intel® Computer Clubhouse will set up 100 centers and provide access to technology as well as technical careers for young people in underserved communities.
- The Intel® International Science & Engineering Fair and the Intel® Science Talent Search provide recognition and college scholarships to talented science and math students around the world.
