Preface **xiii**

Acknowledgements ii

Chapter 1 **That Which Has Come Before** **1**

Recorded Sound 2
 Phonograph 3
 Graphophone 4
 Gramophone 6
 Electric Recording 8
 Beyond 78 9
 Stereo and Quadraphonic Sound 9
 Magnetic Recording 10
Sound Transmission 12
 Telephone 12
 Radio 14
It's a Journey, not a Destination 16

Chapter 2 **Sound** **17**

Intro to Sound 18
 Longitudinal Waves 18
 Waveforms 21
 Pure Tones 21
Propagation of Sound 25
 Diagramming Sound Movement 25

| | |
|---------------------------|----|
| Speed of Sound | 27 |
| Wavelength | 28 |
| Reflection | 29 |
| Refraction | 31 |
| Diffraction | 34 |
| Interference | 35 |
| Beat Frequency | 36 |
| Doppler Effect | 37 |
| Sound Intensity and Power | 40 |
| Logarithms | 40 |
| Decibels | 41 |
| Sound Power | 41 |
| Sound Intensity | 42 |
| Pressure | 43 |
| Decibels Revisited | 46 |
| The Frequency Domain | 48 |
| Sounds of Interest | 53 |
| Sine Waves | 54 |
| Square Waves | 54 |
| Triangular Waves | 55 |
| Saw-tooth Waves | 55 |
| White Noise | 56 |
| Pink Noise | 56 |
| Measuring Sound Quality | 57 |
| Harmonic Distortion | 57 |
| Signal to Noise Ratio | 58 |
| Dynamic Range | 59 |
| Summary | 60 |

Chapter 3 Hearing 61

| | |
|-----------------|----|
| Useful Concepts | 62 |
| Nonlinearity | 62 |
| Filters | 65 |
| Physiology | 68 |
| Outer Ear | 68 |
| Middle Ear | 69 |
| Inner Ear | 70 |
| Brain | 71 |

| | |
|--------------------------|----|
| Intensity and Loudness | 71 |
| Intensity | 71 |
| Loudness | 72 |
| Frequency and Pitch | 76 |
| Frequency | 76 |
| Frequency Selectivity | 77 |
| Pitch | 77 |
| Timbre | 79 |
| Masking | 79 |
| Simultaneous Masking | 79 |
| Non-simultaneous Masking | 81 |
| Critical Bands | 82 |
| Temporal Resolution | 84 |
| Sound Localization | 85 |
| Monaural Cues | 85 |
| Binaural Cues | 86 |
| Summary | 90 |

Chapter 4 Speakers 91

| | |
|------------------------|-----|
| Drivers | 92 |
| Driver Types | 92 |
| Driver Characteristics | 98 |
| Woofers and Tweeters | 101 |
| Crossovers | 103 |
| Enclosures | 105 |
| Materials | 105 |
| Topology | 106 |
| Polarity | 116 |
| Speaker Types | 119 |
| Passive vs. Active | 119 |
| Applications | 120 |
| Summary | 124 |

Chapter 5 Microphones 125

| | |
|------------------|-----|
| Transducer Types | 125 |
| Dynamic | 126 |
| Ribbon | 126 |
| Condenser | 127 |
| Piezoelectric | 129 |
| Carbon | 129 |

| | |
|---------------------------|-----|
| Laser | 130 |
| Characteristics | 130 |
| Impedance | 130 |
| Sensitivity | 131 |
| Frequency Response | 132 |
| Polar Patterns | 132 |
| Measuring Directivity | 143 |
| Self Noise | 146 |
| Maximum Input Level | 146 |
| Microphone Types | 147 |
| Standard | 147 |
| Lapel | 147 |
| Boundary | 148 |
| Shotgun | 150 |
| Parabolic | 153 |
| Which Microphone is Best? | 154 |
| Summary | 155 |

Chapter 6 Multichannel Sound 157

| | |
|-----------------------|-----|
| Monophonic Sound | 157 |
| Stereophonic Sound | 158 |
| Playback | 158 |
| Recording | 160 |
| Binaural | 163 |
| Surround Sound | 165 |
| Naming Conventions | 165 |
| Common Configurations | 166 |
| Summary | 168 |

Chapter 7 Digital Audio 169

| | |
|---------------------------|-----|
| Digital vs. Analog | 169 |
| A Metaphor | 170 |
| Advantages of Digital | 174 |
| Living in an Analog World | 175 |
| Sampling | 175 |
| Ideal Sampling | 176 |
| Aliasing | 182 |
| Real World Sampling | 186 |
| Quantization | 191 |

| | |
|------------------------------------|-----|
| Oversampling | 198 |
| Noise Shaping | 201 |
| Coding Methods | 203 |
| Pulse Code Modulation | 203 |
| Differential Pulse Code Modulation | 203 |
| Delta Modulation | 204 |
| Delta Sigma Modulation | 205 |
| Summary | 206 |

Chapter 8 Connections 207

| | |
|---------------------------------|-----|
| Audio Signal Basics | 207 |
| Unbalanced and Balanced Signals | 207 |
| The Ground Loop | 208 |
| Analog Levels | 209 |
| SPDIF | 209 |
| Connecters | 210 |
| Phone | 210 |
| Phono | 211 |
| XLR | 211 |
| TOSLINK | 212 |
| Summary | 212 |

Chapter 9 Compact Disc 213

| | |
|----------------------------------|-----|
| Overview | 213 |
| Advantages | 215 |
| Drawbacks | 215 |
| Types | 215 |
| Disc Details | 220 |
| Disc Layout | 220 |
| Tracks and Pits | 221 |
| Rotation | 224 |
| CD-DA Details | 224 |
| AAD, ADD, and DDD | 224 |
| Data Format | 225 |
| Content Protection | 228 |
| Other Audio Optical Disc Formats | 229 |
| HCCD | 229 |
| SACD | 230 |
| MiniDisc | 231 |
| DVD | 232 |
| Summary | 232 |

Chapter 10 MPEG 233

| | |
|--------------------------|-----|
| Overview | 233 |
| The Many Flavors of MPEG | 234 |
| MPEG Audio | 235 |
| MPEG-1 Audio | 236 |
| Layer I | 237 |
| Layer II | 240 |
| Layer III | 241 |
| ID3 | 243 |
| Psychoacoustical Models | 244 |
| MPEG-2 Audio | 246 |
| MPEG-2 LSF | 246 |
| MPEG-2 BC | 246 |
| MPEG-2 AAC | 247 |
| MPEG-4 Audio | 252 |
| General Audio Coding | 252 |
| Speech Coding | 255 |
| Synthetic Sound | 257 |
| Scalability | 259 |
| Profiles and Levels | 260 |
| Summary | 263 |

Chapter 11 DVD 265

| | |
|------------------------------------|-----|
| Overview | 265 |
| History of DVD | 265 |
| DVD Specifications | 266 |
| Format Overview | 267 |
| Format Compatibility | 269 |
| Physical Structure | 270 |
| Sides, Layers and Capacities | 271 |
| DVD-Video | 274 |
| Features | 274 |
| File Layout and Logical Structures | 277 |
| Audio Formats | 280 |
| DVD-Audio | 284 |
| Features | 285 |
| File Layout and Logical Structures | 286 |
| Audio Formats | 288 |
| Compatibility | 291 |
| Summary | 292 |

Chapter 12 Digital TV and Radio 293

- Digital Television 293
 - ATSC 294
 - DVB 298
- Digital Terrestrial Radio 299
 - DAB 299
 - IBOC 302
- Digital Satellite Radio 305
- Summary 306

Chapter 13 Audio on the PC 307

- Evolution of PC Sound 307
 - Sound Cards 308
 - Hardware Abstraction Layer 309
 - Soft Sound 310
- Usage Models 312
 - Editing 313
 - Ripping 313
 - Burning 314
 - Downloading 314
 - Streaming 315
 - File Sharing 316
 - Digital Home 319
- Summary 320

Chapter 14 That Which is Yet to Come 321

- Ruminations 322
 - The Persistence of Speakers and Microphones 322
 - The Death of Analog 322
 - Smaller, Faster, Cheaper 323
 - New Distribution Models 324
 - The Digital Home 325
 - The Universal Network 326

Glossary 329**Selected Bibliography 341****Index 349**
