

Contents

1 Introduction 1

The Importance of Innovation	2
Innovation's Virtuous Circle	3
Three Types of Innovation	4
Radical Innovation	4
Incremental Innovation	5
Innovation by Reapplication	5
Innovation Need Not be Wholesale Invention	5
Innovation is Not Just About Products and Services	7
Investment in Innovation	7
Value Creation Opportunities	9
Open Innovation and the Drive for Best End Value	10
Innovation Shifts in Business Models	12
IT Innovation: A Two-Part Process	12
Creation	12
Adoption and Diffusion	13
Innovation as a Lateral Process	16
Barriers to Innovation	17
In This Book ...	17
Summary	19

2 Business Value Management 21

The Importance of a Common Language	22
The Cost of Miscommunication	23
Business Value Dials	25
Business Value and IT Efficiency	27
Building Innovation Business Cases	29
IT Innovation Business Cases	29
Portfolio Management	31
Post-Implementation Review	32
Summary	32

3 IT Innovation 33

The Special Case of IT Innovation	34
The Six Parallel Vectors of IT Innovation	35
Vision	36
From Vision to Prototype	38
Business Case	40
Business Process Change	42
Organizational Change	42
Customer or Societal Change	43
Summary	47

4 Systemic Innovation 49

Managing Systemic Innovation	50
Systemic Innovation	52
Capability Maturity Framework for Systemic Innovation	54
Ad Hoc	54
IT Innovation CMF Basic Level of Maturity	55
IT Innovation CMF Intermediate Level of Maturity	55
IT Innovation CMF Advanced Level of Maturity	58
IT Innovation CMF Optimizing Level of Maturity	60
Innovation Excellence and Operations Excellence	64
Systemic Innovation Imperatives	64
Summary	65

5 Innovation Capability 67

IT Innovation Project Stages	68
Ideate	69
Brainstorming	69
Lateral Thinking	69
TRIZ	71
Ethnographic Research	71
Prototype	73
Concept Cars	73
Usage Models	74
User-Centered Design	74
Refine	75
Outsource	76
Open Source	76
Software as a Service	76
Open Innovation	77
Diffuse	77
Web 2.0 Internet	77
Mashups	79
Crowd Sourcing	79
Copy-Exactly	80
Other Diffusion Techniques	80
Summary	81

6 Innovation Assessment 83

Intel's Innovation Self-Assessment Process	84
Assessment Teams	84
The Assessment Process	84
The Self-Assessment Framework	85
Section 1. Management Commitment	86
Section 2. Business Responsibility	88
Section 3. Innovation Competency	89
Section 4. Enterprise Values	90
Section 5. Innovation Support	92
Section 6. Impact of Innovation	92
Scoring the Self Assessment	93
Developing an Action Plan	96
Moving to the Next Maturity Level	98
Management Commitment	99

- Business Responsibility 101
- Innovation Competency 103
- Enterprise Values 105
- Innovation Support 106
- Impact of IT Innovation 108
- The Importance of Innovation Assessment 110
- Summary 111

7 Innovation Pipeline Management 113

- The IT Innovation Pipeline 114
 - Pipeline Stages 115
 - Pipeline Value Paths 116
- Managing the IT Innovation Pipeline 117
 - Step 1: Design the Pipeline 118
 - Step 2: Capture Innovation Ideas 120
 - Step 3: Create and Populate a Registration System 121
 - Step 4: Choose a Vetting Procedure 122
 - Step 5: Manage the Innovation Project Portfolio 123
 - Step 6: Establish and Use Value Realization Metrics 125
- Improving Yield for IT Innovations 126
 - Tactics for Improving Yield 127
 - Sample Results 127
- Intel Innovation Index 128
- Summary 129

8 Diffusion of IT Innovation 131

- Diffusion Fundamentals: How Innovations are Adopted 132
- Categories of Adopters 132
- The Chasm 133
- Chasm Two 134
- The S-curve Perspective 135
- Metcalfe's Law 137
- Gladwell's Tipping Point 138
- Friedman's Flat World 139
- Diffusion Fundamentals: Lessons Learned 140
- Diffusion of IT Innovation 141
 - Assets, Methods, Skillsets 142
 - Develop Infrastructure 142

Prepare Technical Support	144
Marketing Innovations	145
One Final Ingredient for Success	147
Summary	147

9 Launching Systemic IT Innovation 149

Gaining Management Commitment	150
Create and Communicate a Vision	150
Develop an Innovation Strategy	151
Measure Business Value	152
Developing Innovation Capabilities	153
Training	153
Reinforcing Innovation	154
Innovation Centers	155
Creation and Diffusion	156
Intel's Experience	158
Innovation Enablers and Inhibitors	158
Systemic Innovation	159
Culture and Innovation	160
Summary	160
Stay in touch	161

Appendix A Case Studies in IT Innovation 163

Wireless Westminster, Part 1	164
Vision	164
The Prototype	165
The Business Case	167
Wireless Westminster, Part 2	169
Business Process Changes	169
Organizational Changes	170
Societal and Customer Changes	170
Vision Revisited	170
Epilogue	171
Innovative eSupport at Intel, Part 1	172
A Vision is Born	173
Formalizing the Effort	173
Calling for the Question	174
Innovative eSupport at Intel, Part 2	175

Appendix B Innovation Assessment Tools 179

Intel's Self-Assessment Tool	180
Section 1. Management Commitment	180
Section 2. Business Responsibility	182
Section 3. Innovation Competency	184
Section 4. Enterprise Values	185
Section 5. Innovation Support	189
Section 6. Impact of Innovation	190
Appraising Innovation Performance	191
