

# Contents

## **Preface**

- For Whom Is This Book Intended?
- The Elevator Pitch
- Getting the Most Out of This Book
- Acknowledgments

## **Chapter 1: What Are IT Best Practices?**

- Obstacles to Improving IT Operations
- What Do Best Practices Mean and Why Are They Important?
- Better Practices versus Best Practices
- The Three Fundamental Steps
- Other Benefits of the Three Fundamental Steps
- The Area of Application

## **Chapter 2: Laying the Foundation**

- Defining Tasks and Processes
- Consolidating Tasks into Processes
- Other Aspects of Tasks
- From Tasks to Processes
- Identify and Catalog Processes
- Process Attributes
- Questions to Ask
- Template Tools
- Evaluate and Prioritize Processes
- Process Maturity Modeling
- Process Maturity Modeling Characteristics
- Extending Process Reach

## **Chapter 3: Gap Analysis and Process Refinement**

- Gap Analysis
- Example of Gap Analysis: Change Management
- Continuing with Gap Analysis
- Deeper Gap Analysis
- After the Analysis

What Then?  
Process Refinement  
Process Evolution  
Process Innovation  
Process Integration  
Centers of Excellence  
Moving from Processes to COEs

## **Chapter 4: COEs—Building on the Process Foundation**

COE Development  
Operations Optimization  
Identify the Organization's Goals  
Identify Metrics to Track Goal Performance  
Identify/Define Key Operational Processes  
Integrate Processes to Reflect Synergy  
Quantify Benefit Back to the Organization  
From Process to COE  
Task/Process/COE Trade-offs  
The COE Template  
A Process Foundation  
What Processes Are Included in COEs?  
What Products/Services Are Included within the COE?  
Aggregating Processes  
The Result: COEs  
Core COEs  
COE Staff  
The COE Brain Trust  
The COE RRT  
Rapid Assimilation  
The 1-Tier Transact Pattern  
The 2-Tier Transact Pattern  
The 3/N-Tier Transact Pattern  
The Client/Server Publish Pattern  
The Web Publish Pattern  
The Stream Publish Pattern  
The Real-Time Collaborate Pattern

The Store-and-Forward Collaborate Pattern  
The Structured Collaborate Pattern  
Conclusion

## **Chapter 5: Metrics**

Pure IT Metrics  
Metrics Gap Analysis  
Mapping IT Metrics to Business Metrics  
Mapping Business and IT Metrics  
Qualitative Metrics  
Value Metrics  
Ongoing Metrics Reporting

## **Chapter 6: Putting It All Together**

IT Products and Pricing  
Productizing Operations  
Cost—Allocation—Price Strategies  
Product Catalog  
Marketing the Value of IT  
Business Relationship Management  
Value/Metric Reporting  
The IT Annual Report  
Other Marketing Techniques  
Conclusion

## **Chapter 7: Process Catalog**

How to Use This Catalog  
Form and Content of Process Catalog Entries  
Application Optimization  
Asset Management  
Budget Management  
Business Continuity  
Business Relationship Management  
Capacity Planning  
Change Management

Configuration Management  
Contract Management  
Contractor Management  
Cost Recovery  
Data Storage Management  
Facilities Management  
Inventory Management  
Job Scheduling  
Negotiation Management  
Network Management  
Output Management  
Performance Management  
Problem Management  
Production Acceptance  
Production Control  
Physical Database Management  
Quality Assurance  
Security Management  
Service-Level Management  
Service Request Management  
Software Distribution  
System Monitoring  
Tape Management  
Workload Monitoring

## **Chapter 8: Center of Excellence Catalog**

Application Center  
Asset Center  
Command Center  
Customer Advocacy Center  
Data and Media Center  
Engineering Support Center  
Outsourcing Center  
Security

## **Appendix A: Further Reading**

**Glossary**

**Index**
