**Preface xi**

**Part I The Basics 1**

**Chapter 1 Introduction to Networking 3**

- What is a Network? 3
- What Can I Do with a Simple Network? 5
  - Sharing Files and Drives 5
  - Sharing a Printer 5
  - Sharing an Internet Connection 6
- Networking Components 6
  - Networking Hardware 6
  - Networking Software 12
- Types of Networks 12
  - Small Peer-to-Peer Networks 12
  - The Differences Between a Small Network and a Large Network 13
  - The Difference Between a Network and the Internet 16
- How to Use This Book 16

**Chapter 2 Planning a Simple Network 17**

- What Computers Can I Network? 17
- Should I Build a Wired or Wireless Network? 18

Planning a Wired Network	19
What Cable Should I Use?	19
Should I Use Ethernet or Fast Ethernet Hardware?	20
Selecting a Network Adapter	21
Selecting a Hub	24
Planning Your Network Cable Installation	24
Network Planner	28
Planning a Wireless Network	29
Selecting a Wireless Adapter	29
Do I Need an Access Point?	30

### **Chapter 3 Installing a Simple Network 33**

Installing a Network with Ethernet Cables	33
How to Install a Network Adapter Card	33
How to Install Drivers	37
How to Connect Two Computers	39
How to Install a Hub and Cables	40
What Do I Do Next?	42
Installing a Wireless Network	43
How to Install Wireless Adapters	43
Configuring Wireless Adapters	45
Installing an Access Point	46
Connecting to Hotspots	47
Wireless Security	48
What Do I Do Next?	48

### **Chapter 4 Setting Up Computers to Use the Network 49**

Setting Up Windows XP	50
Setting Up Windows 2000	51
Setting Up Windows Me	52
Setting Up Windows 98	53
Setting Up Windows 95	54

### **Chapter 5 Using the Network 59**

Overview of Windows Networking	59
Sharing Files and Printers	59
Using Shared Files and Printers	60
How to Share Your Resources with Other Computers	61
Sharing a Folder or Drive	61
Setting the Read-Only Option on the General Tab	65
Sharing a Printer	65
Print Spooling	68
How to Use Resources Shared by Other Computers	69
Accessing Shared Folders or Drives on Windows XP	69
Accessing Shared Folders or Drives on Windows 2000 and Me	69

Accessing Shared Folders or Drives on Windows 98 and 95	70
Accessing Another Computer without Using the Network Icon	70
Creating Desktop Shortcuts to Shared Folders and Drives	71
Mapping a Drive to Shared Folders and Drives	71
Printing to a Shared Printer	72
How to Share an Internet Connection	73
How to Back Up Your Documents	78
Using Backup on Windows XP	78
Using Backup on Windows 2000	80
Using Backup on Windows Me and 98	82
Using Backup on Windows 95	83

## **Part II Beyond Basics 85**

### **Chapter 6 Managing Your Network 87**

How to Change Your Network Settings	87
Changing Settings on Windows XP	87
Changing Settings on Windows 2000	88
Changing Settings on Windows Me, 98, and 95	89
How to Improve Network Browsing	91
How to Manage Shared Resources on Your Computer	94
Managing Shared Resources on Windows XP and 2000	94
Managing Shared Resources on Windows Me, 98 and 95	95
How to Manage Other Computers Remotely	97
Managing Computers Running Windows XP and 2000	97
Managing Windows Me, 98, and 95 Computers Remotely	100
Using NetMeeting for Remote Administration	102
How to Send Messages to Other Computers	104
Sending Messages on Windows XP and 2000	104
Sending Messages on Windows Me, 98, and 95	106

### **Chapter 7 Expanding Your Network 109**

How To Connect Two Hubs	109
Getting the Equipment You Need	110
To Connect Two Hubs	110
How to Connect Three or More Hubs	112
Getting the Equipment You Need	112
To Connect Two Hubs to a Switch	113
Improving Network Performance	114
Using Switches to Improve Performance	114
Upgrading to Fast Ethernet	115

### **Chapter 8 Getting More out of Your Network 117**

How to Improve Network Printing	117
How to Improve File Sharing	118

Using a Desktop Computer for Storage	119
Adding a Network Storage Appliance	121
Adding a Multifunction Network Appliance	122
How to Improve CD-ROM Sharing	122
How to Communicate with Other Computers	123
Installing NetMeeting	124
Setting Up NetMeeting	124
Using NetMeeting	125
How to Access Your Network Remotely	129
Configuring a Dial-up Server on Windows XP and 2000	130
Installing Dial-up Networking on	
Windows Me, 98, and 95	131
Configuring a Dial-up Server on Windows Me, 98, and 95	134
Creating a Remote Connection	136
Connecting to a Remote Computer	137

## **Chapter 9 Using the Internet 139**

Technical Overview	139
IP Addresses	140
Public IP Addresses	140
Private IP Addresses	141
Automatic IP Addressing	141
Network Address Translation	142
Better Internet Connections	143
Faster Internet Connections	144
Using a Gateway to Connect to the Internet	144
Using e-mail	147
How to Manage a Network Connected to the Internet	148
Configuring Private IP Addresses	148
Configuring Static Private IP Addresses	150
Configuring Computers to Access the Internet	152
How to Create and Share Web Pages on Your Network	153
Creating Web Pages with HTML	154
Linking Web Pages	157
Working with Web Graphics	158
Working with Color	159
HTML Quick Reference	162
Sharing Web Pages	164
How to Set Up Your Own Internet Web Site	168

## **Chapter 10 Wireless Networking 169**

Wireless Overview	169
Wireless Modes	169
Identifying a Wireless Network	171
Association	171
Installing a Wireless Network	172

Planning a Wireless Installation	172
Adding Wireless Access to an Existing Network	174
Installing Multiple Access Points	174
Linking Access Points with a Wireless Connection	176
Linking Access Points with Ethernet Cables	177
Connecting Network Segments	178
Wireless Security	179
Encrypting Wireless Data	179
Using an Access Control List	181
LAN Security	182

## **Chapter 11 Network Security 183**

Security Risks	183
LAN Security	184
Hiding Shares	190
Wireless Security	190
Internet Security	191
Firewalls	191
LAN Security	193

## **Chapter 12 Troubleshooting 195**

Network Hardware Problems	195
No Link Lights on the Hub Switch	195
No Link Light for a Computer or Other Device	195
Network Browsing Problems	196
I Don't See Any Computers	196
I See My Computer, But Don't See Others	197
I See Other Computers, But Not The One I'm Looking For	198
I See a Computer, But Can't Access its Shared Resources	198
I Can't Save Documents in a Shared Folder	198
Do I Have to Log On Every Time I Start My Computer?	199
Wireless Network Problems	200
Network Printing Problems	201
I Can't See a Computer in the Add Printer Wizard	201
I Can't Print	202
I Can't Print Now, But Could Before	202
Graphics Don't Print Correctly	202
Characters Don't Print Correctly	203
Can My Printer be Networked?	203
Printers that You Cannot Network	203
Checking Your Network Settings	203
Checking Your Network Components on Windows XP or 2000	204
Checking Your Network Components on Windows Me, 98, or 95	204
Troubleshooting Tools	209

The Ping Command	209
The IP Configuration Utilities	210
Net View Command	211
More Troubleshooting Tips	211

## **Part III Appendixes 213**

### **Appendix A Windows Networking Reference 215**

Windows Peer-to-Peer Networking	215
Logon Notes	217
Network Browsing	218
Protocols and Other Networking Components	219
Network Adapter Driver	220
Client for Microsoft Networks	221
File and Printer Sharing for Microsoft Networks	221
Network Protocols	221
NetBEUI Protocol	222
NetBIOS	222
TCP/IP Protocol	222

### **Appendix B Ethernet Reference 223**

Ethernet Technology	223
Ethernet Addresses	224
Packets	225
CSMA/CD	225
Switched Ethernet	226
Fast Ethernet	227
Mixing 10 and 100 Mbps Devices	228
Cascading Hubs and Switches	228
Network Cabling	231

### **Appendix C Networking Windows NT 233**

Setting Up Networking	233
Using the Network	234
Sharing and Accessing Shared Folders	234
Network Printing	236
To Share a Printer	236
To Set Up Your Computer to Print to a Shared Printer	237
Windows NT Passwords	237

**Glossary 239**

**Index 265**
