

Intel® Solid State Drive and Modules (Embedded)

3D NAND Products Only

Limited Warranty Specification Addendum (Embedded)

Product	Form Factor	Warranty Temperature Limit C	Reported by	Command Used
Intel® SSD Embedded E 5400s	All	NA	SMART attribute 190 (0xBE) counter Byte4 and Byte5 (OverTemperature Counter) equaling a non-zero value	Windows: isdct.exe show-destination <filepath> - intelssd <device index> - smart Linux: “./issdct show – destination <filepath? – intelssd <device index> - smart-
Intel® SSD Embedded E 5100s		NA	SMART attribute 190 (0xBE) counter Byte4 and Byte5 (OverTemperature Counter) equaling a non-zero value	Windows: isdct.exe show-destination <filepath> - intelssd <device index> - smart Linux: “./issdct show – destination <filepath? – intelssd <device index> - smart-
Intel® SSD Embedded E 7000s		NA	SMART attribute 190 (0xBE) counter Byte4 and Byte5 (OverTemperature Counter) equaling a non-zero value	Windows: isdct.exe show-destination <filepath> - intelssd <device index> - smart Linux: “./issdct show – destination <filepath? – intelssd <device index> - smart-
Intel® SSD Embedded E 6000p		70C	Log page identifier log ID = 197, byte 24, “Highest temperature” equaling or exceeding 75	Windows: isdct.exe show-destination <filepath> - intelssd <device index> Date Type=(‘nvmelog’) [logID]=197 Linux: “./issdct dump – destination <filepath> - intelssd <device index> Data Type =(‘nvmelog’) [logID]= 197”
