Intel® Optane™ SSD 900P Series

Segment: High Performance Desktop and Workstation

Interconnect: PCI Express\* (P)

# Storage Performance for Demanding Workloads

**Intel® Optane™ SSD 900P delivers workstation class performance and industry leading endurance to meet demanding storage requirements.**

The Intel® Optane™ SSD 900P Series is designed for the most storage-demanding workloads, delivering high random read/write performance coupled with low latency and industry-leading endurance. Built with Intel® Optane™ technology, a revolutionary class of non-volatile memory, the Intel® Optane™ SSD 900P sets the precedent and opens up new possibilities for high performance desktops and workstations, empowering professional users, creators, and enthusiasts to extract greater platform performance.

### Workstation Class Performance and Low Latency

The Intel® Optane™ SSD 900P provides exceptional random storage performance up to 550K/500K IOPs (4K random reads/writes), and is complemented with ultra-low latency of less than 10 $\mu$ s.<sup>1</sup> These attributes make the Intel® Optane™ SSD 900P a highly responsive client storage solution. The SSD 900P also enables software developers to optimize applications to take advantage of the unique attributes of Intel® Optane™ technology: low latency, high throughput at low queue depth, and high quality of service (QoS). As an example, game developers can take advantage of the features of the Intel® Optane™ SSD 900P to enable faster game loads, richer features, and smoother game play.

### Unlocking More Platform Performance

Today's computing workloads are more demanding than ever. Higher precision, increased complexity, and ultra-realism have driven the need for larger data sets in the workstation space. The ability for a workload to spill out of the DRAM footprint and page to/from the storage device can create starvation for the CPU resulting in inefficiency with platform performance. The performance and responsiveness of the Intel® Optane™ SSD 900P means the CPU can spend less time waiting and more time computing, resulting in greatly increased efficiency. Ultimately, this enables more performance to be extracted from multi-core CPUs.

### Industry-Leading Endurance

Critical to delivering these new levels of performance is the ability to also deliver the endurance to match. With the ability to read and write data to the storage device with higher rates of speed comes the risk of reaching the endurance limits of traditional storage in a much shorter amount of time. To support these performance attributes, the Intel® Optane™ SSD 900P delivers industry-leading endurance, allowing professionals with the most demanding storage workloads to extract years of performance without the need for frequent replacements.

Features At-a-Glance	
Model Name	Intel® Optane™ SSD 900P Series
Capacity	Half Height Half Length Add-in-Card: 280GB and 480GB 2.5" X 15mm, Small Form Factor U.2: 280GB
Memory Media	3D XPoint™ memory media
Bandwidth: Sustained Sequential Reads/Writes <sup>1</sup>	Up to 2500 / 2000 MB/s
Random I/O Operations per Second: 4KB Random Reads / Writes <sup>1</sup>	Up to 550,000 / 500,000 IOPs
Read /Write Latency <sup>1</sup>	<10 μs / < 10 μs
Interface	PCIe* 3.0 X4, NVMe*
Form Factors, Height and Weight	HHHL AIC 68.9mm / 17.2mm / 168mm up to 230 grams 2.5" U.2 15mm / 70mm / 101mm / up to 140 grams
Life Expectancy	1.6million hours Mean Time Between Failures (MTBF)
Lifetime Endurance <sup>2</sup>	10 Drive Writes per Day (DWPD)
Power Consumption Typical	Active Read – Average Power: 8W Active Write – Average Power: 13W Burst Power: 14W Idle: 5W
Operating Temperature <sup>3</sup>	0° C to 70° C
RoHS Compliance	Meets the requirements of European Union (EU) RoHS Compliance Directives
Warranty	5-year warranty
