

# INTEL® VIRTUAL RAID ON CPU (INTEL® VROC)

## SUPPORTED CONFIGURATIONS

Intel® VROC 5.5

This document covers the solid state drives (SSD), operating systems (OS), and configurations supported by Intel® Virtual RAID on CPU (Intel® VROC). If any of this information conflicts with the support information provided by a platform OEM or ODM, the platform documentation and configurations should take precedent.

The support guidance is dependent on the Intel® VROC version being used. This document is for Intel® VROC 5.5. If you are using another Intel® VROC version, please reference the Supported Configurations guide for that version.

## NVME\* SSD SUPPORT LIST

This section covers the SSDs that are supported on the product Intel® Virtual RAID on CPU. This includes the Intel® SSDs and third-party SSDs from other vendors.

Intel® SSDs	Third Party Vendor SSDs
Intel® VROC will support all Intel® SSDs for Data Center with NVMe*, regardless of the Intel® VROC release version being used. For the current reference list of Intel® SSDs supported, please review the Supported Configurations Guide for the most recent Intel® VROC release.
