The following tables were filled out using the directions, below:

Column	Directions
Yes	Indicates conformance with the requirements of this criterion.
No	Indicates NON-conformance with the requirements of this criterion.
N/A	<b>Not Applicable</b> -Indicates the criterion has been reviewed and is not applicable to the item documented. When a criterion has been marked NA the basis for this decision must be provided. This is done by declaring the characteristic of the component that indicates why the criterion does not apply.
NE	<b>Not Evaluated</b> -Indicates the criterion has not been examined and therefore must be examined in the final system level test report. Any criterion not completed must be marked with a NE.
