- REPAIR the Product by means of hardware and/or software; OR
- REPLACE the Product with another product; OR, if Intel is unable to repair or replace the Product,

HOW TO OBTAIN WARRANTY SERVICE

- You may contact your place of purchase or you may contact Intel by calling an Intel Customer Support (ICS) center during business hours. You will be asked for (1) your contact details; (2) proof of purchase; (3) model name and Product identification number; (4) an explanation of the problem and (5) more information if necessary. If ICS confirms that the Product is eligible for warranty service, you will receive a Return Material Authorization (RMA) number and instructions for returning the Product.
- Intel will ship to you, at its expense, the repaired or replaced Product within a reasonable period upon receipt of the returned Product. The replacement product will be warranted under the terms contained in the Limited Warranty, including its exclusions, except that the term of the warranty will be whichever of the following two periods is longer: (1) 90 days, beginning on the date of shipment of the repaired or replaced Product to you; or (2) the remainder of the warranty period for the returned Product plus any additional period equal to the number of days between when you notify ICS of the need for warranty service and when you received the repaired or replaced Product.
- Before returning any product which stores data, be sure to back up your data and remove any confidential, proprietary, or personal information and removable media from the product. Intel accepts no responsibility for any of your confidential, proprietary or personal information.
