Intel Unite® Solution Allows Volkswagen Financial Services to Keep It Smart and Simple

Volkswagen Financial Services (VWFS) is a business division of the Volkswagen AG group of companies and comprises the Volkswagen Financial Services AG along with its associated companies. VWFS has nearly 500 meeting rooms, or collaboration spaces, at its headquarters and most of them are using different technologies like PCs, TVs, projectors, and flipcharts. Every meeting costs time to prepare. VWFS's goal is for every room to look technically the same. They want collaboration to be smart and simple. VWFS selected Intel Unite to help them achieve their objectives of smart and simple meetings that are unified across the organization. Employees like the ability to join meetings from home via a virtual private network (VPN).

“VWFS likes our close interaction with Intel to help us find solutions, improve Intel Unite, and help us implement features as we need them. We continue to learn the benefits of applications of Intel Unite, like the ability to save whiteboard sessions, and appreciate the ongoing exchange we have with Intel as they help us meet our needs.”
