

## How to Activate License?

This document serves as a guide to show how to activate license in Self Service Licensing Center.

If you do not see your Intel® software license in Self Service Licensing Center, your license needs to be activated.

Step 1	:	Log on to the Intel Self Service Licensing Center. Navigation: <a href="https://fpgasupport.intel.com/Licensing/license/index.html">https://fpgasupport.intel.com/Licensing/license/index.html</a>
Step 2	:	Enter your username and password
Step 3	:	Click the Self-Service Licensing Center link
Step 4	:	First, you will need to have a License Activation Code (LAC) <b>Software License:</b> 14 alphanumerical Code from Email Confirmation <b>Development Kit with Software License:</b> Serial Number of the Dev Kit (Printed on Box)
Step 5	:	To start, click the <b>Find it with your License Activation Code</b> link.
Step 6	:	Enter your License Activation Code and click the <b>Search</b> button. 
Step 7	:	Select the new product by checking the left checkbox and click <b>Activate Selected Products</b> button.
Step 8	:	System will show you a message that the product is successfully activated if it is a valid License Activation Code. (LAC)
