

How to Assign Software License to A Licensed User?

This document serves as a guide to assign an active software license to a licensed user in Self Service License Center.

Step 1	:	Log on to the Intel Self Service Licensing Center. Navigation: https://fpgasupport.intel.com/Licensing/license/index.html
Step 2	:	Enter your username and password
Step 3	:	Click the Self-Service Licensing Center link
Step 4	:	Click Products and Users button
Step 5	:	Take note of the Licensed User column. If the software license is owned by a user, the name will be displayed.
Step 6	:	Click the user icon  .
Step 7	:	Enter the email address of the license user and click Save button.
Step 8	:	The system will prompt a message that the licensed product is successfully assigned.
