

**PRODUCT DISCONTINUANCE NOTICE
FLEX 8000 AND EPC1213 MILITARY DEVICES**

Due to a decline in the military products business, Altera announced in PDN 9513 that it would be discontinuing all 883B/DESC and military-temperature grade devices. At that time, the obsolescence schedule for the Classic, MAX 5000, MAX 7000 and EPS448 military devices was provided. The schedule for FLEX 8000 and EPC1213 devices, which was not included at that time, is now shown below.

Rochester Electronics, an extended life supplier, offers limited support for selected products discontinued by Altera -- a complete list of Rochester Electronics sales offices is attached. Please contact your local Altera Sales Representative if you require additional information regarding the changes described in this PDN.

Table 1: FLEX 8000 & EPC1213 Military Device Obsolescence Schedule

Ordering Code (DESC Part #)	Last Order Date	Last Shipment Date
EPF8820GM192-3	Obsolete. Order Substitute Code EPF8820GM883B-3.	Obsolete. Order Substitute Code EPF8820GM883B-3.
