

QUEST THIRDEYE* VISION ANALYTICS PLATFORM

OpenVINO™

Public

RESULT

LEVERAGES AI TO DRAW ANALYTICS AND INSIGHTS FROM VIDEO FEEDS

INCREASES EFFICIENCY THROUGH SURVEILLANCE AUTOMATION

PARTNER

QuEST is a design focused software engineering services company that specializes in enabling digital transformation for leading organizations around the world through their technology consulting, system integration, solution development, and security.

SOLUTION

This vision analytics platform is powered by the **Intel® Core™ i7 processor** and utilizes the **Intel® Distribution of OpenVINO™ toolkit** to create a solution that contains object identification, facial recognition, product inspection, and video analytic components in order to automate security and surveillance in any building or parking lot.

CUSTOMER

QuEST's ThirdEye* vision analytics platform is suitable for multiple industries, including manufacturing, healthcare, transportation, smart cities, and education. This solution provides a higher level of security and promotes a safer environment for all customers.
