Intel® experience what's inside™

EDUCATION FOCUS SKUS

From OEMs with Intel Inside®

Rev Q1 2017.   Next update Q4 2017.

About this document from Intel

Usage

This document is meant to be used as guidance to help target devices for primary and secondary (K12) education

- The products featured are only examples of the worldwide selection of multinational OEM devices with Intel Inside®

- Use this as a reference, but do not limit your offering to this list. Sell the device(s) that best fit the need(s) of the customer

- Information on these pages is provided by the equipment manufacturer and is not verified by Intel, nor does Intel guarantee that the information is error-free

- All information is provided for informational purposes only

- For more information, contact the equipment manufacturer

Audiences

Internal:

- Intel OEM account teams

External:

- Reseller channel
- Technology decision makers in government (ministries and local)
- Non-governmental organizations (NGOs)
- Content providers and publishers
- Independent software vendors (ISVs), education service providers (ESPs), and other ecosystem vendors

Intel®-based 2 in 1s for Education

Get the best of both worlds with a razor-thin laptop and ultra-fast tablet in one.
