

Advance your medical practice with a 2 in 1 device.

Discover how a single 2 in 1 device can support the success of your practice at every level. When you need a powerful, familiar OS and immediate access to patient information it's a fully featured laptop, complete with keyboard and display. When it's time to care for patients, with a twist or a click, it turns into a touch-screen tablet that makes viewing diagnostics, taking notes in a patient file or sharing information easier.¹ Plus, it runs Windows* 8, so it's compatible with the applications you use every day. That's the advantage of a 2 in 1 device with Intel Inside®.

Workers prefer different types of devices for different tasks.²

Laptop preference

Create, edit docs: 65%

Email: 65%

Tablet preference

Web browsing: 67%

Research: 59%

With a 2 in 1, you have one device that does it all.

Laptop: Practice management

The applications and performance to manage your schedule, maintain patient records, and process billing

Tablet: Patient care

The flexibility to better engage with patients by accessing medical records, making notes to patient files, and keeping up with the latest medical knowledge on-the-go

2 in 1: Practice management & patient care

A 2 in 1 does it all and keeps your contacts, emails, and files in one place

Windows* 8-based devices help you help patients with your most used apps, and many more:

Greenway* PrimeMOBILE

NeuroMind*

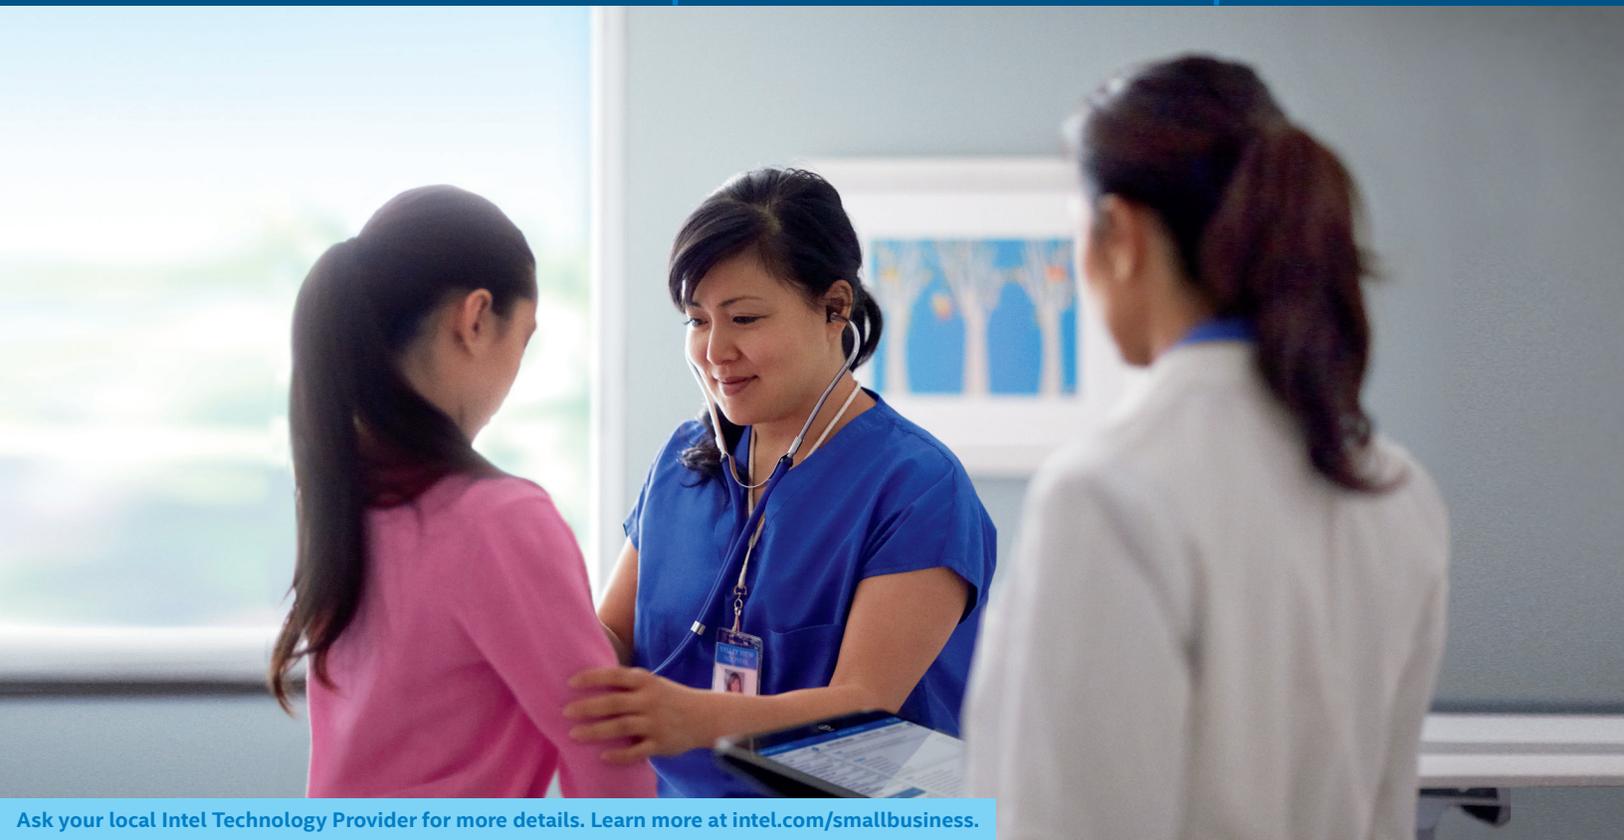

3D4Medical* Essential Anatomy

Microsoft* Outlook

2000+ Business Apps³

1. 2 in 1 products are offered in multiple models. Some models may not be available in your market. Consult your 2 in 1 manufacturer. For more information and details, visit <http://www.intel.com/2in1>.
