

FREEDOM TO GO FURTHER

In your busy life, you want your PC with you, ready to help you focus – wherever you go. Go wire free, worry free with an always connected PC with powerful Intel® Core™ processors

INTEL® CORE™ PROCESSOR

Power for both simple and complicated tasks – 4K streaming, video editing, gaming entertainment, even masterful multitasking

4G LTE CONNECTIVITY

Get online instantly and securely, free from dependency on Wi-Fi and hotspots

YOUR CHOICE: WINDOWS* OR CHROME*

Choose the operating system you prefer without sacrificing the PC performance your life demands

POWER THROUGH THE DAY

Travel farther on a single charge and free yourself from electrical outlets

YOUR LAPTOP YOUR LIFESTYLE

Because form is as important as function, rest assured always connected PCs with powerful Intel processors come in a variety of designs that fit your life and lifestyle

MAKING YOUR CONNECTION

Choose the connection to fit the moment

WI-FI

When your PC has blazingly fast Intel® Wireless-AC inside, it also has Bluetooth™ technology to wirelessly connect your mouse and headphones.

4G LTE

Built-in Intel® XMM™ 4G LTE modems in your PC give you the same connection you experience today in your smartphone – data speeds up to one gigabit¹. This means you get online faster and, since it's your own connection, it's safer than public access Wi-Fi.

PHONE TETHERING

No hotspot? No worries. By using your smartphone's data link, you can create your own mobile hotspot to connect your Intel®-powered PC to the Internet.
