Intel U.S. Immigration Sponsorship Guideline

Intel seeks U.S. Workers (i.e., U.S. Citizens, U.S. Nationals, U.S. Lawful Permanent Residents or persons granted asylum or refugee status by the U.S. Government) for U.S. based positions.

Intel will sponsor foreign nationals for work visas and permanent resident status for U.S. positions in which the company experiences a shortage of qualified U.S. Workers. These skill shortage jobs are STEM contributing positions requiring a Master’s or PhD degree in a related field or a Bachelor’s degree with at least three years of related work experience. Foreign national students at the undergraduate level are not eligible for sponsorship or internship positions since we typically do not experience skills shortages in these areas.
