# How Intel® DevCloud for the Edge Works

- 1** Access the Intel® DevCloud for the Edge through your web browser
- 2** Develop and test applications online using GitHub and datasets stored in the Intel® DevCloud's cloud storage
- 3** Test sample code to showcase benchmarking capabilities to customers. Customers can also test their own applications for benchmark performance results

- 4** Runs tests to benchmark the application's performance on selected Intel processors and accelerators
- 5** Produces the inference video/image as output
- 6** Provides performance results to find the optimal hardware for the tested AI vision application

The Intel logo is positioned in the top right corner of the slide. It consists of the word "intel" in a lowercase, blue, sans-serif font, with a registered trademark symbol (®) to its upper right. The logo is set against a white rectangular background that partially overlaps a dark blue square. To the right of the white square, there are three small, overlapping squares in shades of blue, arranged in a descending staircase pattern.
